**CIU Faculty of Medicine** has been operating since 1995 and has numerous successful and highly qualified alumni. Each Educational Program envisages basic and clinical disciplines. Modern infrastructure and technical equipment contribute to creating a perfect environment both for professors and students. Practical classes are conducted in leading Georgian clinics and medical institutions, thus facilitating the employment of successful students in the future.

Anatomical Theatre and Clinical Skills Center are functioning at the Faculty of Medicine, Caucasus International University. They are equipped with the latest educational-medical technologies – modern computer and high-tech equipment, simulators and other educational models manufactured by the International Corporation “3B Scientific”. Clinical Skills Centre aims to develop practical clinical skills for future doctors that meet the international requirements of modern medical education. Students have an opportunity to acquire basic clinical practical skills in emergency, obstetrics and gynecology, resuscitation, therapy and surgery. Clinical Skills Centre plays an important role in the upbringing and formation of highly qualified medical personnel.

Within the framework of the **Dentistry Program, Phantom Cabinets and University Dental Clinic** are operating at the university, which enable students to have direct contact with patients from an early stage of studies.

Internationalization is one of the priorities of the university. Programs offered in English and tailored to modern standards provoke great interest among international students.

**CIU** is a member of **The World Directory of Medical Schools**

**Caucasus International University (CIU)** is a Higher Education Institution based on national values and focused on constant changes. University history dates back to 1995. It is a higher education institution equipped with modern infrastructure and technology and oriented towards integration with international educational field and constant renewal.

#### University Vision:

Caucasus International University is an educational-scientific institution that supports socio-economic progress and develops values of Georgian and world culture based on modern knowledge.

#### University Mission:

Caucasus International University creates modern learning and the scientific environment by implementing innovative methods, as well as through intercultural education and diverse university life. The University ensures upbringing a generation with democratic values that will be competitive at the local and international labor markets.

(World Federation for Medical Education (WFME) and the **Foundation for Advancement of International Medical Education and Research (FAIMER)**).

**CIU** was included in the list of acknowledged foreign Medical Institutions by the **Medical Council of India (MCI)** in 2016.

**CIU** joined the **International Association for Medical Education – “AMEE”** in 2018. We are constantly working on the issue of recognition of diplomas issued by us with the governments of countries that are not members of the Bologna Process and do not automatically recognize the European education system.

**GMC/GDC Approval – CIU Medicine and Dentistry** programs fully meet GMC/GDC criteria, which means integrating at least 5500 practical contact hours into the Medicine program and 1600 contact hours into the Dentistry program.

## Faculty of Medicine

- ▶ **Undergraduate Educational Program in Pharmacy**
- ▶ **Educational Program in Medicine**
- ▶ **Educational Program in Medicine Offered in English Language**
- ▶ **Educational Program in Dentistry**
- ▶ **Educational Program in Dentistry Offered in English Language**

**CIU Faculty of Viticulture and Winemaking** is focused on training highly qualified professionals with higher education who will be able to fully adapt to the relevant sector.

The educational programs are in full compliance with the directions of strategic development of the most important field for the country and have been developed taking into account the best practices of similar authoritative foreign programs.

Students have the opportunity to acquire a systematic knowledge of viticulture and winemaking, to study and implement classical and innovative methods of winemaking with the full cycle established nowadays – “From the Ground to the Table”. Along with this, the priority is to teach traditional Georgian Qvevri wine technology.

The partners of the faculty – well-known companies of the wine industry are additionally involved in the successful implementation of practices.

Emphasis is placed on teaching foreign languages in the undergraduate program. The program offers English, French and Spanish as the languages of developed wine-growing countries.

The faculty is distinguished by an ever-growing international partnership network, as well as exchange programs at the universities of Burgos and La Rioja in Spain and internships at wineries.

It is also worth mentioning that the university winery “Ethno Okami”, which currently produces five types of high-quality Qvevri wine: Shavkapito, Khashmi Sapheravi, Tavkveri, Chinuri-Goruli Green and Rkatsiteli and the students of the faculty of Viticulture and Winemaking are actively engaged in wine production process together with the high-qualified specialists.

# Faculty of Business and Technology

- ▶ Undergraduate Educational Program in Information Technology
- ▶ Undergraduate Educational Program in Management
- ▶ Undergraduate Educational Program in Finance
- ▶ Undergraduate Educational Program in Tourism
- ▶ Postgraduate Educational Program in International Business Management
- ▶ Postgraduate Educational Program in International Marketing
- ▶ Doctoral Educational Program in Business Administration
- ▶ Undergraduate Educational Program in Information Technology Offered in English Language

CIU Faculty of Business and Technology offers Georgian-language as well as two English-language programs – the Undergraduate Program in Business Administration (current status: under accreditation) and the Undergraduate Program in Information Technology.

International students of the Faculty have the opportunity, with the help of internationally recognized practicing lecturers and by using modern teaching methods, to obtain a high-quality education in the field of business and become competitive personnel in the international market.

The faculty is focused on making the learning process practical for students from the first courses. The following can serve as a clear example of this: Business Incubator project, where students can develop and implement their own business models; “Mock Bank”, where students practically master banking; in addition, analytical-research centers and modern technological programs focused on practical activities in the field of business.

The variety of exchange programs at top European universities is the most important for students, which gives them additional experience and, finally, after graduation, is a prerequisite for a successful career.

# Faculty of Law

- ▶ Undergraduate Educational Program in Law
- ▶ Postgraduate Educational Program in Law
- ▶ Doctoral Educational Program in Law

- ✓ Highly qualified practicing lecturers recognized in the legal community;
- ✓ Moot Court Room;
- ✓ Legal Clinic;
- ✓ Criminalistics Laboratory;
- ✓ Active cooperation with the state/private sector;
- ✓ Exchange programs in leading European universities recognized in the field of law.

The undergraduate, graduate and doctoral programs of the CIU Faculty of Law, along with high-level theoretical studies, are distinguished by their practical component, and each program is tailored to the interests of students to the greatest extent.

One of the keys to the success of the faculty is the academic staff recognized not only in Georgia, but also abroad. Highly qualified and leading practicing lawyers participate in the implementation of educational programs.

In order to implement the practical component the following operate at the faculty:

- Legal Clinic which is implemented in the Tbilisi City Court, penitentiary institutions, the Public Defender's Office, the Expert-Criminal Department of the Ministry of Internal Affairs, the Chamber of Notaries of Georgia and leading legal companies;
- Internal legal clinic, which includes the practical components of lawyer and forensics activities;
- University Moot Courtroom/Tbilisi City Court Sessions Hall - Mock trials are held within the framework of all procedural study courses with the participation of students.

Justice Auditorium – The auditorium provides an opportunity for students and other stakeholders to get complete information about

# Faculty of Social Sciences and Humanities
